Sea Technology Index
Volume 40 (1999)

This instant reference of technical subjects, news, and special features from Volume 40 of *Sea Technology* magazine provides subject information about articles and news items subjects (Part One) and authors of feature article (Part Two). Numbers following entries indicate issue month and page number.

This listing will also appear on the* Sea Technology *website in the near future. Check it out at http://www.sea-technology.com.

SUBJECT INDEX

–A–

Acoustic communications, ONR 5/17
Acoustic instrumentation, sunken ships ..4/72
Acoustic links, coastal observatories 10/29
Acoustic modems, Telesonar 2/17
Acoustic sediment classification 9/35
Acoustic telemetry
  adaptive modulation 5/29
  high-rate underwater 5/67
  research 5/10
Acoustic tomography instrumentation 3/55
ANAIS nutrient analyzer 4/75
Antisubmarine Warfare
  commercial off the shelf components ..1/12
  undersea warfare issues 11/10
Aquaculture, ultimate ocean ranch 8/17
Archaea, biological kingdom 1/10
Argos satellite, new capabilities 5/59
ASLO 2000 (Conference Preview) 12/43
Aurora, tow-body 4/55
AUTEC Range
  cabling 7/57
  coordinated test & training 11/31
AUVs
  2nd annual vehicle competition 9/66
  Cetus I 12/37
  Navy demonstration 1/22, 9/9
  semi-autonomous 10/37
  Theseus missions 2/65
AWIPS, honored by Smithsonian 5/9

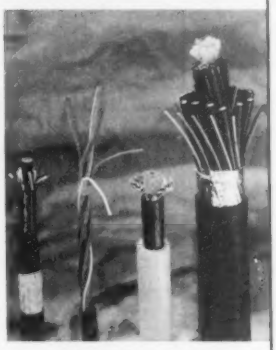
Let Mercury Wire Design A Cable Solution For You



Extreme environment electro-mechanical cables custom designed by Mercury Wire Products can be:

- water and abrasion resistant
- flexible at low temperature
- able to withstand high pressure and temperature
- cabled power & signal lines

There is no added charge for custom cable engineering and no minimum order required. You get the cost-effective, superior quality cable you need.

For almost three decades, Mercury engineers have designed and manufactured wire and cable solutions for extreme environment applications. Let us design a cable solution for you.

MAR-VEL Underwater Equipment, Inc.

Bringing Diving to New Depths

At Mar-Vel, our tradition of providing the finest diving equipment, quality service and competitive pricing has not changed since our beginnings in1946. But over the past 51 years, our line of equipment certainly *has* changed. We offer the most modern, versatile line of diving equipment that you'll find anywhere under the sun...*or ocean!*

Supplying the commercial operator, marine scientist, military, and salvage and scuba diver.

Side Scan Sonar

High Resolution Sonar Systems for Seafloor Mapping and Object Detection

EdgeTech has responded to customer needs for reliable side scan sonar systems for over 30 years. EdgeTech's DF-1000 Topside Processor and Digital Towfish System offers the latest technology in true digital side scan sonar. Featuring dual simultaneous operation, combined with sonar processing software, data can be acquired, displayed, stored, and processed using one complete system.

The Sound Solution For Side Scan Sonar

EdgeTech

When it's all about getting the right signal

HMS 1820-P
Hydrometric Tide Station

Features of the HMS 1820-P

- Pressure type tide gauge
- Robust, stainless steel nose
- 10 Hz. sampling rate
- Large capacity silo memory
- Time transmission or polling mode
- Telephone auto-dial
- Remote time synchronisation
- Internal or external power
- Reads power status
- Bi-directional radio communication
- Windows 98 support

Dry mounted tide gauge also available
